MEMORANDUM FOR: Members, NFIP Support to Contingency Operations Working Group

SUBJECT: Interim Report [redacted]

25X1

1. Attached is a draft interim report for the DCI on our efforts to date. Plans call for it to be the main agenda topic at this month's CIPC meeting on 28 July. By forwarding an interim report now, the working group will have a bit more time to complete the final study.

25X1

2. Because of the severe time constraints--CIPC agenda items are scheduled to be forwarded to members around 21 July--the working group will not meet to coordinate on the interim report. Realizing that many of the issues identified in the past two months require further discussion, [redacted] and I have drafted the interim report more to highlight the problems rather than to put forth concrete recommendations on how best to solve them. As an interim report subject to change, it does not commit you or your organization to any particular course of action. It is intended to provide the general direction of where the working group is heading to find those solutions.

25X1

3. Comments and/or recommended changes are, of course, welcome, but they must be received before COB 18 July to be incorporated into the draft going to CIPC members. I can be reached on secure at [redacted]
